

Classic Series, Barbell Rack

The Classic Series, Barbell Rack is a commercial-grade storage solution designed to keep barbells organised, accessible, and safely stored within busy training environments. Built with a heavy-duty steel frame and compact footprint, it helps maintain a clean and efficient free weights area while supporting high-use commercial facilities. The angled storage design allows for quick barbell access, making it suitable for strength zones, performance gyms, and functional training spaces.

Ergonomic Design

Durable & Space Saving

Technical Specifications

Rating	Commercial
Product Weight	Gross: 79kg / Net: 72kg
Frame	Heavy Duty Steel
Dimensions	L 88.7 × 74.4 × 142.6 cm
