

Dual Series, Inner Outer Thigh

The Gym Gear Dual Series strength line offers a comprehensive solution for fitness facilities where space, budget or both are limited. Featuring 8 dual / multi-functional strength stations, the Dual range can provide a versatile strength training area for a wide range of facilities including boutique studios, hotels and fire stations.

This space efficient, dual functional machine allows users to tone and strengthen their inner and outer thigh. The angled knee pads and foot bar improve function and comfort during workouts, making it easy for users to position themselves optimally for the exercise selected.
