

Endurance Touch, Treadmill

The treadmill from the Endurance Touch series integrates the latest advancements in technology and aesthetics available on the market. It features both decline and incline capabilities, tailored to enhance connectivity with the SmartFocus system. This treadmill epitomises modern comfort and performance, equipped with a robust 5CV motor that can achieve speeds of up to 25 km/h. Additionally, it includes an incline mechanism and an HST resin deck, among other cutting-edge features.
