

Gym Gear Aluminium Alloy Half Trapeze Pilates Reformer

The Gym Gear Aluminium Reformer with built-in Trapeze combines precision engineering with professional-grade versatility. Designed for advanced Pilates practice, it integrates a full Trapeze system into a durable aluminium alloy frame, providing exceptional strength, stability, and performance. The lightweight yet robust construction includes built-in transport wheels for easy movement, while the microfiber leather upholstery delivers lasting comfort and support.

Smooth, adjustable resistance is achieved through five German-engineered piano wire springs, each with two gear settings for precise load control. The integrated Trapeze frame expands the range of motion and exercise possibilities, allowing users to perform both Reformer and Cadillac-style movements in one compact system.

Includes Multiple Accessories

Built-in Wheels

Microfiber Leather

Built in Trapeze
