

Gym Gear Aluminium Reformer

The GymGear Aluminium Reformer is built for professional performance, combining strength, comfort, and versatility in a sleek, modern design. Crafted from high-quality aluminium alloy, it delivers long-lasting durability while remaining lightweight and portable thanks to its built-in transport wheels.

Designed for both studios and home use, the reformer provides smooth, adjustable resistance with five German-engineered piano wire springs, each offering two gear settings for precision control. The microfiber leather upholstery ensures superior comfort and support, even during the most demanding sessions. For maximum versatility, the GymGear Aluminium Reformer comes with a jump box and double-looped straps, allowing for a wide variety of exercises. It is also compatible with the Half Trapeze accessory, making it ideal for expanding your Pilates training options.
