

HIITMax Training Station

Boost your workout efficiency with the HIITMax Training Station, an all-in-one solution for full-body HIIT workouts. Constructed with heavy-duty 3mm steel tubing, it features an Aqua Bag for conditioning, integrated storage for kettlebells, dumbbells, and slam balls, and a landmine attachment for core exercises. The chin-up station supports various pull-up styles, while the mounting bracket allows for Smart TV integration. Perfect for functional, strength, and endurance training in both home and commercial gyms.
