Adjustable Pulleys

Technical Specifications

Rating	Commercial
Adjustments	Adjustable pulley height to allow easy operation and comfort for a wide range of exercises
Tubing	Tube of the functional part is primarily at a 3mm thickness. The weight stack cage is with D-shape tube size: 95 x 81.1 x 3mm and a racetrack tube size: 50 x 100 x 3mm which ensure ultra-durability and stability.
Instructions Plaque	Instructions placards to review proper set-up, movement and muscles trained
Shroud	Translucent ABS shroud at a thickness of 3.2mm ensures ultra-durability and shock resistance.
Pulley Ration	2:1
Cable/Handle Travel	2390mm (7.8ft)
Weight Stack	2 x 91kg 2 x 200.6lbs
Dimensions	L 162 x W 137 x H 227 cm L 63.7 x W 53.9 x H 89.3 inches

Key Features

Space efficient design requires minimal floor space	•
Self-lubricate American loos™ cable with nylon-coated 12 complex fiber ensures service life more than 250 thousand times.	•
Water bottle holder fixed on the cage is within reach.	•
Ergonomic handlebars in TPV material with aluminium ring limit offers comfort and security during a workout	•
All dynamic components are shielded for safety purpose	•
Lathed pulley with bearings of less tolerance ensure smooth movement	•
Meets EN957 safety regulation	•
