

Perform Series, Inner / Outer Thigh

The Perform Series Inner / Outer Thigh features pivoting thigh pads which allow for training of both abductor and adductor muscles. The adjustable back pad and numerous starting positions, ensure comfort and proper movement biomechanics regardless of user size and flexibility.

Water Bottle Holder

Instructions placard

High-density Poly-foam

Adjustable Starting Position

Technical Specifications

Rating	Commercial
Upholstery	High-density poly-foam and double stitches offer comfort and durability
Adjustments	Adjustable starting position
Tubing	Tube of the functional part is primarily at a 10mm thickness. The weight stack cage is with D-shape tube size: 95 x 81.1 x 3mm and a racetrack tube size: 50 x 100 x 3mm which ensure ultra-durability and stability.
Instructions Plaque	Instructions placards to review proper set-up, movement and muscles trained
Shroud	Translucent ABS shroud at a thickness of 3.2mm ensures ultra-durability and shock resistance.
Weight Stack	72kg 160lbs
Product Weight	131.1kg 289lbs
Maximum User Weight	150kg 330lbs
Dimensions	L 155.5 x W 90 x H 150.6 cm L 67 x W 61 x H 59 inches

Key Features

Space efficient design requires minimal floor space	•
Self-lubricate American loos™ cable with nylon-coated 12 complex fiber ensures service life more than 250 thousand times.	•
Water bottle holder fixed on the cage is within reach.	•
Ergonomic handlebars in TPV material with aluminium ring limit offers comfort and security during a workout	•
All dynamic components are shielded for safety purpose	•
Lathed pulley with bearings of less tolerance ensure smooth movement	•
Meets EN957 safety regulation	•
