

Wood Effect Premium Flooring Tiles

Introducing our new flooring collection, featuring a 2mm dense rubber layer reinforced with fiber for added durability. This flooring is fully customisable in both colours and unique patterns, making each installation truly one-of-a-kind. The quality we deliver is unmatched.

While ideal for gym environments, our new flooring series is also perfect for a wide range of commercial spaces, including libraries, recreation centres, offices, schools, shopping malls, lobbies, and more. Not only does it elevate the aesthetic of these areas, but it also provides excellent foot comfort and protection, making it a versatile and stylish flooring solution for any space.
