

Pursuit 2.0 Bike

Gymgear's Pursuit Bike is designed to enhance the performance of beginners and athletes alike. Using the same adjustable air resistance technology as our Blade Rower, coupled with an additional magnetic resistance for hill climbing, and when you really want to push yourself to the very limit. The Smart colour console shows a range performance metrics including watts, and connects to a variety of cycling and fitness apps including, but not limited to: zwift, kinomap, gymtrack, xert, sufferfest, and rgt cycling.
