

Rubber Dumbbells Sets

Dumbbells are a fantastic total-body conditioning tool, providing a fast and effective way to target every muscle group.

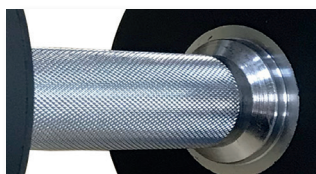

Our fully commercial Gym Gear Premium Rubber Dumbbells are made to last. The solid steel construction complete with Virgin Rubber coating makes for a strong, highly durable piece of kit that won't chip or crack. Our dumbbells are solid steel weights pressed onto solid steel handles under 5 tons of pressure to ensure the tightest possible fit, which is then machine welded so it will never come loose. The handles are chrome coated with the correct depth of knurling to enhance grip and promote comfort/ safety.

Rubber & Steel

Easy Weight Identification

Knurled easy-grip handle
