

Elite Series, Seated Calf Raise

Offering supreme functionality, high durability and an aesthetically sophisticated design, the Elite Series sets the benchmark for excellence in commercial selectorised strength equipment. The minimal space and budget requirements combined with the high performance, intuitive design of the Elite Series machines, makes them the perfect fit for any fitness facility and exerciser. The Elite Series Calf Raise is designed to activate the Gastrocnemius and Soleus muscles through a plantar flexion movement. The seated design eliminates spine compression, providing a safe, effective and comfortable workout.
