

T98e Entertainment Treadmill

The T98e is part of our top of the range entertainment series. With built in connectivity to wi-fi and bluetooth devices there is access to a host of fitness technology to help users monitor their progress and stay motivated.

Circle Cloud Go

CircleCloud Go is a comprehensive wellness eco-system aimed to deliver the most effective body and fitness management. With unique apps developed reaching your desired fitness goal has never been so accessible and fun.

Music and Social Apps Integration

Target Train

"Target Train" comes with 5 different exercise targets, keeping you motivated and on track for your fitness plan!

My Performance

Whether you are using our cardio equipment, outdoor fitness apps or wearable devices My Performance brings them all together to give you the best personal fitness performance information.

Body Manager

Our data integration technology compiles information from our body analyzer and translates it into simple graphs and tables. Managing your body has never been easier!

My Gym

My Gym keeps users up to date with the latest news, classes and offers from their facility. It also lets users customize their personal schedules by adding or removing classes from the personal calendar.

My Workout

We believe that each individual person deserves an individualized workout. We provide our users with the capability to design their own training courses, tailored to suit their needs.

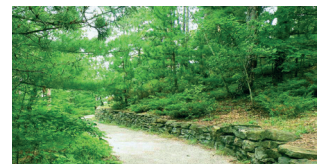

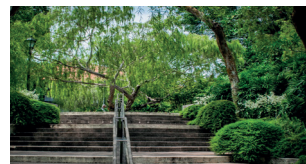

CircleFit App

Our powerful app boasts a realtime connection with Circle Cloud and our latest touchscreen consoles, giving users the power to master their workouts with just a smartphone. Take control of your fitness; anytime, anywhere.

Exercise Apps and Wearable Integration

With our data integration capabilities, your fitness progress across the most popular workout apps is seamlessly tracked, archived and synced into our CircleFit app technology. Mixing up your workouts, monitoring your progress and keeping motivated has never been as simple or as fun!
