

Wall Ball Target

The Wall Ball Target and Bracket is a sturdy, easy-to-mount solution for wall ball training, offering a consistent and reliable target for every rep. Designed for use with standard wall balls, the bracket provides secure support while the clearly defined target zone ensures accuracy during high-intensity functional workouts. Perfect for gyms, training facilities, and Functional-style events, it's a compact and durable addition that helps athletes maintain form, focus, and performance across a range of wall ball exercises.
