

Elite Series, 3D Smith Machine

Offering supreme functionality, high durability and an aesthetically sophisticated design, the Elite Series sets the benchmark for excellence in commercial selectorised strength equipment. The minimal space and budget requirements combined with the high performance, intuitive design of the Elite Series machines, makes them the perfect fit for any fitness facility and exerciser. The Elite Series 3D Smith Machine is an evolution of the standard Smith Machine. The linear bearings provide an exceptionally smooth, fluid bar movement in all planes (up, down, forwards and backwards), increasing the functionality of the machine whilst retaining the spotter catches for added safety.

Space Saving Design

Heavy Duty Steel Frame

Technical Specifications

Rating	Commercial
Finish	Elastostatic Powder-coated and heat cured after adhesive enhancement pre-treatment for superior durability
Tubing	2.5-3mm by 50 x 100 oval tubing
Product Weight	200kg 440lbs
Loading Capacity	200kg 440lbs
Dimensions	L 200 x W 141 x H 219 cm L 79 x W 55.5 x H 86 inches

Key Features

Space efficient design requires minimal floor space	•
Commercial grade, heavy duty steel frame	•
Electrostatic powder-coated and heat cured for superior durability	•
High quality linear bearings ensure super smooth vertical motion	•
Assisted 20kg Olympic bar	•
Independent safety catches with 10 racking positions	•
Integrated chin up bar	•
