

Platinum Series, Lateral Raise

The biomechanically enhanced design of our brand new Platinum Series allows users to develop muscular strength, power and endurance in a safe and controlled setting. The Platinum Series Lateral Raise effectively isolates the entire shoulder (anterior, medial and posterior deltoids) and trapezius muscles for the ultimate shoulder / upper back workout. With innovative features the exercisers can tailor the equipment experience to suit their needs. While clean lines and tubing create an elegantly modern design and premium look, perfect for any fitness setup.
