

Rubber Hex Dumbbell Sets (Black Handle)

High-quality rubber hex dumbbell available in 1 to 10kg, 2.5 to 25kg or 12.5 to 40kg sets. The 1 to 10kg goes up in 1kg increments (a set of 10 pairs). The 2.5 to 25kg set goes up in 2.5kg increments (a set of 10 pairs). The 12.5 to 40kg set also goes up in 2.5kg increments (set of 12 pairs). Perfect for use at home or in commercial gyms. The anti-roll design prevents the dumbbells from rolling away from you when you put them down. Popular for use in cross-fit, circuit training and PT studios.

Rubber & polyurethane

Easy Weight Identification

Knurled easy-grip handle
