

Elite Lifting Platform Inserts

Our Elite Lifting Platform inserts are designed to provide a strong and stable surface for Olympic lifting, as well as providing unlimited branding options. Choose any colours or design for the top of your insert, and it will be safely protected under the 2mm non-slip vinyl surface, meaning it will never fade or wear away. Available in a variety of lengths and thicknesses. Often fitted with our 20mm, 30mm and 40mm floor tiles to provide a consistent floor level in the gym, rather than having a raised standalone lifting platform.

Custom Branding Available
